

Pool Restoration update #1

To all residents of Lake Conley MHP.

As of April 15 2026 we have reviewed and signed a contract with the "The Pool Works" company.

The pool requires a significant amount of repair work to maintain pool integrity and overall condition of the pool.

Additionally, we are upgrading the underwater pool lights to LED.

We are now working with their construction manager (JIM).

Based on his construction schedule he has provided a construction start date of,

Monday Nov 9 2026, Project duration **4-5 weeks**. That includes adding chemicals to return the pool water quality for daily use.

The board has agreed to this construction schedule.

Please contact a board member if you have any questions or concerns.
